

HS-660 加速度计电缆和偏置检查器

主要特点

- 供状态监视工程师使用
- 验证加速度计的功能
- 轻巧便携
- 可充电电池

Technical Performance

Input	Constant current accelerometer
Display	Indicates the DC bias of accelerometer
LED	Indicates status of test accelerometer Green - OK Red - High Bias Voltage Amber - Low Bias Voltage
Connection	BNC socket
Leads	Supplied with 0.5 m BNC plug lead for connection to BNC socket or switch box. Spring clip lead to enable direct connection to an accelerometer with flying leads
Enclosure	Blue plastic, with rubber moulding
Size	75 x 125 x 300 mm
Battery life	3 hrs (1 x PP3) Low battery indicator on display
Weight	270 gms
EMC	EN61326-1:2013
